

2023-2024 Transactions

Despite the headwinds affecting M&A transactions, buyers and sellers have generally been able to close transactions, albeit with more effort and over a longer timeframe.

A representative sample of transactions in which we participated during 2023 and to date in 2024 is set forth below; tombstones for earlier transactions can be found at www.barley.com/Mergers-Acquisitions. We appreciate the relationships that we have with clients, deal participants and referral sources and are thankful for the opportunities to work on these transactions. Please do not hesitate to reach out to us if you have any questions as to how we would approach a transaction.
